SPRING/SUMMER 1993

Welcome to your guide to great value

We have compiled the Argos Superstore catalogue with you in mind, to offer you a great way of shopping for a huge range of quality products, at prices you will find hard to beat.

This Superstore catalogue contains all the products which are available from our Traditional Argos stores, plus an additional 1600 lines which are exclusive to Superstores. To make it easier for you to find what you want, we have now combined our Traditional and Superstore ranges together, so you can see the full range Argos has to offer.

Products marked by these

symbols are exclusive to our Superstores, and are not available from Traditional Argos stores. Please see the back of the catalogue for your nearest Argos Superstore.

How to shop

Shopping is simple:

- 1 Write the catalogue number and the quantity of the goods you require on a selection form (there are some included in this catalogue as well as in-store).
- 2 Take the form to a service point.
- 3 Whilst you are paying, your goods will be brought to the collection counter ready for you to collect. Some of our larger items can also be ordered by telephone and delivered to your door, please see page 1 for details.

Ways to pay

You can pay for your purchase with cash or any one of the credit or debit cards shown.

You can also pay by redeeming your Premier Points (see page 4)

You can also pay by cheque and, if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status, you may also need additional identification).

Overseas visitors may qualify for Tax Free shopping, saving on the cost of your purchase. Please ask in-store for details.

Up to \$1,000 Instant credit*

Please ask in-store for details.

*Subject to status. Available to most adults.

Argos is a licensed credit broker.

Argos personal account

There's now more than ever to choose from at Argos. With our Personal Account you can afford what you want now, and then spread your payments over time. Please ask in-store for details. APR 18.9% (subject to variation). *When payment is made by Direct Debit. A written quotation is available on request.

Delivery Services

To make shopping even easier, Argos offers two delivery services

Free home delivery service

- Free delivery anywhere in Great Britain (including Northern Ireland).
- Delivery normally within 14 days.

For your convenience, items which are too large or heavy to stock in our stores, will be delivered direct to your home free of charge.

These items are marked by the red lorry symbol and are not available for collection from any of our stores.

As well as being able to order any Argos

Direct item at the Customer Services area in our stores, you

can also phone our ARGOS DIRECT FREE Linkline ordering number. You can call 24 hours a day, 7 days a week, giving your order and credit card details.

Once you place an order, we will contact you to arrange delivery. Delivery will normally be within 14 days, unless otherwise indicated in the item description or at time of ordering.

Please note: The 0800 Linkline number can only be used for placing orders for items marked with the red lorry symbol. When ordering you will be given an alternative number for any other queries.

Our free home delivery on selected computers

also includes in-home set up. See page 547 for details.

Free home delivery on selected computers

Superstore delivery service

- Deliveries anywhere within 20 miles of any Argos Superstore.
- Order by telephone or in-store.
- Service is available on any catalogue items, except those delivered free by Argos Direct.
- One small delivery charge covers as many items as you wish to order.

You can order by telephone during normal working hours - just giving your order and credit card details. Or, you can arrange delivery when you order in-store.

See the back of the catalogue for your nearest Argos Superstore and telephone number.

As an extension to our Superstore Delivery service, we also offer Free

Delivery and installation on all large screen televisions (20 inch and over) and VCRs from any Argos Superstore. See page 566 for details.

Installation is to an existing electrical socket and adjacent aerial point. This offer applies within a 20 mile radius of any Superstore (mainland only).

You can order at your nearest Superstore or by telephone, ask for our Superstore Delivery Service.

Upholstered furniture selection centre

To ensure that the item you order is exactly what you want, please see our upholstered Furniture Selection Centre in your local Argos store for fabric samples used in the manufacture of our furniture and garden furniture.

Save £££'s at Argos with Premier Points

Many Argos customers are already collecting Premier Points and using them to save £££'s at Argos.

REDEEM

ANY POINTS

ANY ITEM

ANY STORE

- You can collect Premier Points when you buy petrol or diesel fuel from Mobil Service Stations, and when you stay at any Friendly Group Hotel.
- Points can be redeemed at any Argos store. A full card is worth £3 but there is no need to wait, you can redeem any value of points at anytime.
- Simply present your Collecting Card(s) to the cashier when making a purchase of one or more items from the Argos catalogue*. You can add to your Points value with any other method of payment accepted at Argos stores.

For full terms and conditions pick up a leaflet at any Argos store, participating Mobil Service Station, or Friendly Hotel and start saving today. See page 418 for more information.

* Excludes any telephone or mail order services.

Extended guarantees

To reinforce the Argos policy of selling high quality products, we also offer 3 and 5 year

Extended Guarantees on a range of electrical and household items from microwave ovens and televisions to midi systems and cameras.

We also offer free first year accidental damage cover. See page 592 for details.

Argos gift vouchers

£5 Cat. No. 888/1105 £5 Cat. No. 888/1567

£10 Cat. No. 888/1101 £20 Cat. No. 888/1068

If you want to take care of a birthday, anniversary or any other special occasion, an Argos Gift Voucher could be the answer.

Vouchers are also ideal for incentive and promotional awards (see page 417). Please note that Gift Vouchers cannot be exchanged for cash.

The following guarantees do not affect your statutory rights

Committed to quality and safety

We want you, our Customer, to have total confidence that every item you purchase from Argos is **SAFE, RELIABLE** and of the highest **QUALITY**.

We have therefore, developed a large Quality Control team, fully dedicated to fulfilling such requirements, and have many products tested at independent laboratories.

All our goods, especially nursery and toy products, are subject to strict safety regulations and we take every care to ensure that all our products are safe.

The lion mark is a symbol of toy safety and all Argos toys are tested for compliance with exactly the same approved safety standard.

The "CE" mark, which appears on all Argos toys, is part of a campaign by the EEC to improve safety standards across Europe.

All our upholstered furniture conforms to scratch and cigarette ignition tests.

Many electrical products now come with pre-fitted plugs. Look for the fitted plug symbol.

PLEASE NOTE:

- Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and return to your original choice.
- Please check the in-store catalogue before ordering.
- Under exceptional circumstances, we may have to make adjustments to our prices given in the catalogue, (which include VAT at 17.5%).
- All items are subject to credit by.

The Argos promise

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 14 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unopened condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, cut-glassware, pre-recorded music or videos, and fresh flowers.

After sales care

Making sure that you are happy with your purchases both when you buy them, and after you have taken them home, is very important to us.

• If a product develops a fault, simply return it within 30 days of purchase and we will offer you an exchange or a full refund.

• We will provide a free-of-charge repair facility, normally within 14 days, on products which develop a fault and are returned to a store more than 30 days after purchase but within 12 months.

• Any product which develops a fault and has a manufacturer's guarantee beyond 12 months will be repaired free-of-charge for the duration of that guarantee.

Many electrical appliances can also be serviced in your home, please ask in-store for details.

Argos supports the guidelines for guarantees set by the British Retail Consortium.

 £8.75**
 for 1 box of 12 Carnations

- 12 mixed fresh carnations delivered anywhere in the UK direct from Jersey
- Personal message card (up to 10 words)
- Complete with flower fast and plant care instructions

To order call our Flower Hotline number on 0524 864425 quoting your credit card or Anglo Personal Account number and reference AFD-CA 19A. Lines are open Monday-Friday 9am-5pm, Saturday 9am-1pm. Or alternatively complete the coupon on page 4 and send with your cheque/credit order payable to Fying Flowers Anglo Discount Office, Fying Flowers, PO Box 172, Jersey JE4 8JQ.

Although the flowers are delivered by first class post, the exact delivery date cannot be guaranteed. To allow for specific "required by date" please allow 10 days from placement of order. The dispatch dates for Western, Day and Easter are the 12th March, 19th and 2nd April 1991 respectively. Flowers will be dispatched from 15th March 1990 and 5th April 1991.

Fying Flowers are delivered "mixed" so they last longer. Our promise states "In the unlikely event of any complaint received within 7 days of receipt, we will replace the bouquet to the same value as ordered or refund in full." The product is produced from the April 14 day money back promise.

Detachable shaving head for easy cleaning

Adjustable comfort control

Large effective on/off switch (on back)

Rechargeable NiMHs for cordless operation: 30 minute full charge and 3 minute quick-charge

Multi-voltage: 100-240V ac

Unique charge level meter with "minutes left" indication

Low-charge alarm

Power on/light

Model FS880

Cat. No. 4454880

£58.50

Philishave with the unique rotary action for the closest possible shave.

A close shave is what most men try to achieve and most women admire. So choose from the selection of traditional three head Philishave or twin head including Philishave Tracer, all with a wide range of features.

Philishave Rechargeable
The power of performance... all in one shaver intended for up to 2 weeks of cordless independence at home or away

Philishave Mains
Highly featured powerful mains shaver for the ultimate close shave everyday

Philishave Battery
Used sparingly on the move for the travelling man. Keep in the car or office as a "top-up" for wet or dry shavers.

For the full Philishave range see pages 427-430

NO ESCAPE CUTTING ACTION

Since beard hairs grow in all directions, Philishave rotating heads have been designed with angled slots which are open on both sides, to catch both long and short hairs.

PHILISHAVE® UNIQUE ROTARY ACTION

DOUBLE ACTION "LIFT AND CUT"

A unique piece of micro-technology, comprising a lifter and cutter that perform together with micro-precision, gently lifting, then cutting the stubble before the hair falls back into the skin.

SELF-SHARPENING BLADES

The cutter blades are specially ground to a sharp edge and rotate at high speeds inside "flaring" shaving heads to give a very close and comfortable shave.

PHILIPS

Fisher-Price

At Argos we sell a wide range of safety products which can help give you that extra reassurance and peace of mind. Within this guide we have set out some key points for you to follow in the home and also very importantly in the car. However there can be no substitute for common sense and close supervision.

Safety in the Home

There are some essential items which can help you make your home safe for baby. A selection of which you will find in this catalogue. Here are some key points to follow which we have drawn up in conjunction with **Accident Watch**, the Royal Society for Prevention of Accidents.

- ▲ Fit a safety gate at the top and bottom of the stairs and keep stairs and landings clear of toys.

- ▲ Keep in touch with your child around the home by using a baby monitor.
- ▲ Use a fireguard securely fixed to the wall whenever you have a gas, electric or open fire.
- ▲ Make sure the side of the cot is securely fixed when your child sleeps and use a ventilated mattress.

Safety in the Car

- When travelling by car there are certain points you need to remember each time you travel to make sure the drive is safe as well as comfortable for your child.
- ▲ When choosing your car seat check it is correct for the age and weight of your child.
- ▲ Before fitting the seat make sure you read the manufacturer's leaflet carefully to ensure full protection, as your child's safety depends on correct installation.

- ▲ Always check the car seat harness each time you travel to make sure your child is secure and also comfortable. You can choose from a wide range of car seats which fit most car models on the following pages. However our safety equipment does not, of course, guarantee safety, careful driving is always required. Some car seats may require fixing into - check with your local dealer prior to fitting.

Using Toys

Finally, as your toddler begins to climb, there are a whole range of toys to buy for them. Again, by following some key points you can make sure playtime is safe as well as being great fun.

- ▲ Always refer to the manufacturer's leaflet prior to use and retain for future reference.
 - ▲ Make sure the toy is right for the child's age and ability - check the age recommendation before you buy.
 - ▲ Keep older children's toys out of reach of young children and babies.
- We have briefly tried to provide you with a range of safety tips and ideas for safety equipment at Argos. Now simply look through the catalogue and see how we can help you to look after your child both indoors and outdoors.

1. **INFANT BOTTLE AND FOOD HEATER**. Suitable for use with both wide and narrow-neck feeding bottles. Heats milk to required temperature. Thermocouple controlled. Can also be used to heat baby food. With insulated lid.

Most cameras are fitted with additional features to give greater flexibility when taking photographs, so we have explained some of the key features.

Features Guide

Flash

A built-in flash works directly off the camera batteries and is usually effective for up to 15 feet. A low-light indicator shows when to turn the flash on. An external flash will work automatically when there is insufficient light. On some cameras, a sensor flash can be turned off for atmospheric shots, or used as "fill-in" flash when the subject is in the shade or against a bright background. Red-eye reduction utilizes a preflash to contract the subject's pupils to avoid "red-eyes".

Motor Drives

Motorized **load** automatically winds the film to the first frame - ready for use. After each shot, motorized advance automatically winds the film onto the next frame. At the end of the film, motorized rewinding will rewind the film ready to take out.

Auto Focus/Focus Lock

Basic cameras have a fixed focus, which does not vary no matter how far away the subject is. Cameras with auto focus automatically focus on the subject in the centre of the viewfinder. Focus lock allows you to focus on your subject and then recompose the shot, still holding your subject in focus.

DX Coding

The camera will automatically adjust to the speed of film you are using.

Auto Exposure

The aperture automatically adjusts to give the right exposure for the existing light conditions.

On more sophisticated cameras a backlight compensation facility allows for bright backgrounds such as snow or sand.

Programmed Shutter

The shutter speed automatically adjusts to give the right exposure for the existing conditions.

Self Timer

This allows you to set the camera and take a photograph approximately 7 seconds later, so that you can be in the shot as well. A dual self timer takes two pictures in succession whilst a special multi-frame self timer allows you to take up to four consecutive shots.

Remote Control

This facility enables you to operate the camera from the position that you want to be in for the photograph.

Zoom Lens

A zoom lens allows you to bring the subject closer and

frame the shot as required without having to move. The bigger the zoom (measured in millimetres) the nearer the image, and so the larger, it will appear.

Twirl Lens

This enables you to choose between normal or a close-up shot depending on how you wish to frame the subject.

Macro Facility

This allows you to focus close, focused close up shots.

Infofilm

This feature is used when taking long distance shots or for shooting through glass with an auto focus camera.

LCD Panels

Uncomplicated cameras, these show the current function status, eg the selected flash and focus mode, battery level, and how many pictures have been taken.

Canon

Helping you to take better pictures

Memories. That's what photography is about. And there is no surer way to keep your memories alive than with a Canon camera. Whether you want to capture special family moments, or record exciting holiday events, a fully-automatic Canon camera will help you to shoot sharp, colourful pictures.

CLOSE ENCOUNTERS OF THE CANON KIND

Move in close. That's the advice photo books give to camera users. It makes your subject bigger, adding impact to the images. But with some Canon cameras, you don't need to move. Pressing a button changes or zooms the lens, giving you a bigger image from the same viewpoint. Look for "twinklens" or "zoom lens" models.

SAY GOODBYE TO "RED-EYE"

Red-eyes are fun - in other people's pictures. The monster-making effect is caused by the camera's built-in flash. But most Canon cameras now have a special red-eye reduction mode which reduces the risk of red-eye spoiling your pictures. So if your children still look like little monsters, you won't be able to blame the camera!

SEE PAGES 523-527 FOR THE ARGOS RANGE OF CANON CAMERAS

FOCUSING WITH A MIND OF ITS OWN

Autofocusing gives you sharp images - sometimes. Most autofocus systems read from the centre of the image. Too bad if your subject is at the side. But many Canon cameras have "intelligent focusing". This will find the subject and focus on it, giving you sharp pictures every time. Another helpful feature from Canon.

THE NEW GENERATION OF COMPACT CAMERAS

Despite their small size and light weight, Canon compact cameras are packed with features. They all offer automatic film loading and film advance, plus built-in flash. And they are all made to the high standard you expect from Canon - a company with over fifty years' experience of camera design.

EVERYTHING YOU NEED

The Canon Sureshot Mega Zoom 105 camera has everything you need to produce pictures you will treasure - wide-range zoom lens, 3-point intelligent focusing, red-eye reduction mode. And it is easy for everyone to use. Cat. No. 5610085. Price £197.50

Consumer/Canon batteries are available via Argus mail order centres, see page 140.

FROM ONLY £44.99

If you want more than just a photograph, a camcorder allows you to capture the action in sound and vision. Camcorders give high quality home video recordings and have a wide range of features to give you greater flexibility and improved photography. To help you choose, our guide below explains some of the technical terms and features.

Tape Formats

There are 2 camcorder formats, using different types of tape. **Beta** tape is a small cassette which gives up to 90 minutes recording, or 3 hours with long play.

Tapes are played back by plugging the camcorder directly into your TV or video recorder using the leads supplied. Recordings can be edited onto VHS tape via a video recorder. **VHS-C** is a compact tape which can be played in your VHS video recorder, using the special adapter supplied with all of our VHS-C camcorders.

They give up to 45 minutes of recording, which can be extended to 90 minutes with a long play facility.

VHS-C tapes can also be played back by connecting the camcorder directly into a TV or video recorder 21 pin SCART

socket. If you do not have a video recorder or 21 pin socket TV, you will need to buy an RF lead and adapter - available from Argus Mail Order Services (telephone 061-927 7298 or ask in-store for details).

Features Guide

Power Zoom

A power zoom gives a smooth zoom-in action for close up shots. The greater the zoom, the greater the magnification.

Full Range Auto Focus
This ensures that the subject stays in focus, no matter how close or far away.

Intelligent Auto Iris
This auto focus facility works through the lens to give clearer shots and a better colour balance.

Twist Lens

Twist lens camcorders have both a wide angle and zoom lens.

Macro

A macro facility allows clear and focused close-up recordings.

Picture-In-Picture

A twin lens allows you to combine wide angle and close-up shots of the same action, by a small inset within the main picture.

Fader

A fader allows you to smoothly fade in and out of different shots.

Shutter Speed

A variable shutter speed allows slower speeds in low light conditions, whilst a high speed shutter gives clear shots for high speed action.

Lux Illumination

The lower the lux minimum illumination, the lower the light conditions in which the camcorder can still effectively record.

Flying Erase Head

When recording over old scenes this gives a cleaner transition from old to new recordings.

Title Memory

You can superimpose titles or dates onto your recordings as a permanent reminder.

Age Insert

By entering your child's birth date, you can have an on-screen display of their age on freeze recordings.

Edit/Camera Search

You can view previous recordings through the camcorder for editing or to find the correct position to resume recording.

Infra-Red Remote Control

This allows you to operate the playback features of your camcorder from the comfort of your armchair.

Long Play/Record

This feature allows you to record and playback for twice the normal time, is 3 hours on a 90 minute tape.

Insert Edit

This allows you to insert a new recording in between existing scenes.

TELEPHONE RELAY

For any queries about your camcorder please ring the appropriate helpline during office hours.

SCIENTIFIC AND PROGRAMMABLE SCIENTIFIC CALCULATORS

SCIENTIFIC CALCULATORS
All scientific calculators have an LCD display. Mathematics functions include percentage, square root and memory. Algebraic logic is used for computation.
NB: All Casio scientific calculators are capable of carrying out standard deviation statistical calculations.

PROGRAMMABLE
These calculators, in addition to being programmable, offer many scientific functions. Most have 21-24 feature a 16 character by 8 line display. They give the best graphic representation of built-in functions and user generated formulae plus statistical graphs.

GRAPHIC SCIENTIFIC
These calculators in addition to being programmable provide the facility for data to be presented graphically through the medium of matrix diagrams. High resolution LCD screens.

ARGOS MAIL ORDER

We now operate a mail order service for spare parts and accessories for your calculators and office equipment. For credit card orders, please ring 061-927 7298 (24 hour service) or alternatively pick up an order form from your Argos showroom. No stamp is required.

**ALL YOU NEED AT
VALUE FOR MONEY PRICES**

A GUIDE TO

typewriters & word processors

If you are building up your business, from an office or your home, you will be looking for the latest office equipment. At Argos we now sell a wide range of business equipment, and at affordable prices. Making the right decision as to how to equip your office, can be difficult with a lot of technical information and features to understand. To help you with your choice, we have explained some of the features relating to our range of Typewriters and Word Processors.

Typewriters

An Argos we have a comprehensive range of typewriters, from manual to advanced electronic typewriters.

Features Guide

Correction Memory

Enables you to correct up to two lines of current text, so if an error is made you can simply reselect and delete it.

Text Memory

is a facility which allows you to store information/text of varying amounts. This can range from 1 pages of text with a 8K memory to 4 pages of text with a 12K memory capacity.

LCD

(Liquid Crystal Display) allows you to review and edit text early on screen before printing.

Justification

Allows you to produce documents with the right hand margin blocked so that sentences are equally proportioned regardless of number of words, to give a professional appearance.

Spellcheck

Facility alerts you to spelling mistakes and enables you to produce documents free from errors.

Print Speed

This is measured in CPS (characters per second).

Typing Pitch

The pitch designation represents the number of characters that can be typed per inch.

Decimal Tabulation

Automatically positions the carriage for alignment of numbers at the decimal point.

Word Processors

Word Processors offer all the benefits of an advanced typewriter but with the additional features of larger displays and a bigger memory capacity. This memory of all our Word Processors can also be expanded by the use of an external 3 1/2 inch floppy disk.

Features Guide

Block Copy/Move/Delete

Provides you with the ability to copy, move or delete a block of text, allowing you to edit simply and quickly.

Search and Replace

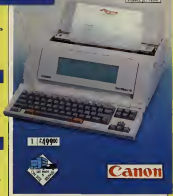

Enables editing of a specific word or phrase throughout a piece of text in one single operation.

Address/Mail Merge

Allows you to merge a list of names and addresses with a letter enabling you to provide personalised correspondence easily.

"WYSIWYG"

"WHAT YOU SEE IS WHAT YOU GET". Allows you to see exactly what will print out on paper.

Autospell

If a word is misspelt this facility provides alternatives and automatically replaces them.

MS Dos File Format Compatibility

Allows storage of information in DOS format to enable data exchange with PCs.

We have a wide range of office equipment for your office or home, so let Argos take care of it.

Extended Guarantee

For added peace of mind why not take out an Argos 3 or 5 year Extended Guarantee.

See page 592 for further details.

Computers

If you are looking for a personal computer (PC) to use in the home for you, your family or a small business, Argos now offer a selection of PCs to suit your needs. PCs can be an excellent source of education and entertainment and are becoming easier to use. Memory capacity differs by machine and is an important factor in your choice.

Memory

The size of a computer's memory is judged by how many bytes of data it can hold, normally measured in megabytes (1 MB=1 million bytes). The speed at which a PC processes information is determined by its level of megahertz (MHz). The higher the MHz, the faster the computer processing.

The Random Access Memory

(RAM) is the working memory utilised whilst in operation. Information held in the RAM is lost when the computer is switched off, therefore this needs to be stored on hard or floppy disks.

A Hard Disk Drive

has a high capacity to store information and is located in the body of the Central Processing Unit.

Floppy Disks

enable you to store information externally from the computer on small 3 1/2 inch disks. The amount of information that can be stored depends on the density of the disk.

Argos sell a range of floppy disks which are compatible with all our Computers and Word Processors - see page 543 for more details.

Printers

The most common printer used with word processors and PCs is the Dot Matrix. Recently, ink jet printers have become more popular.

The Dot Matrix

This printer simply creates an image on the paper using a row of 9, or in the more expensive models 24 pins. The pins strike rapidly onto a ribbon, onto the paper. A 24-pin printer is able to create a much smoother outline for letters and graphics since it uses more "dots per inch".

Ink/Bubble Jet Printers

This works in a similar way to the Dot Matrix printer, the main difference is the ink jet. An ink jet is activated by a pump, or in the case of a Bubble Jet printer, by heat creating steam pressure in the ink tube. This forces the

ink onto the paper creating the image with near laser quality print. One of the key benefits is that they print more quietly.

DPI (Dots Per Inch)

This refers to the density of the print, the higher the DPI, the higher the density of the print.

Variable Print Speed

Most printers have variable print speeds, measured in CPS (characters per second). The faster the speed, however, the less definition is given to the print.

Friction Feed Facility

enables you to handle single pages through the printer whereas the Pull Feed Tractor facility handles a continuous supply of paper.

Buffer Memory

enables you to store information being transmitted from the PC ready for printing.

Fonts

These are different typologies which allow various presentations of your work.

5. EPSON LK-400 PRINTER 9 pin dot matrix printer. Auto-load pulldown for continuous copy and paper guide for A4 cut sheets. Print speed 180 characters per second (CPS) initial, 30 CPS in near letter quality (NLQ) Roman and Sans Serif 12 fonts plus type enhancements including SuperScript, italics and Underlined. For variable code see item 607.

Only available in Supermarkets

Get 100% FREE! £129.00

2. EPSON 6300 PERSONAL PRINTER. 9 pin dot matrix printer. 50 sheets A4 paper. Variable and pull-through continuous copy mode. Print speed 180 CPS initial, 40 CPS in near letter quality (NLQ). Low noise (30 dB) operation. 2-factor control panel. Flat as a page operation. Roman and Sans Serif 12 fonts plus type enhancements including SuperScript, italics and Underlined. For variable code see item 607.

Only available in Supermarkets

Get 100% FREE! £149.00

3. PANASONIC DP-1123 24 PIN MATRIX PRINTER. High speed print in 6 letter quality fonts. Simultaneous speed to max 240 CPS shall maintain 84 CPS letter quality. 3 paper feed paths. Business size and edge grab and pull tractor feed. 256 buffer memory. Parallel interface facility for variable code see item 607. Supplied with plug.

Get 100% FREE! £185.00

The image displays a variety of printers available at Argos, categorized by brand and type. The printers are arranged in three rows. The top row features three Epson models: a 9-pin dot matrix printer (item 1, £139.00), a 9-pin dot matrix printer (item 2, £149.00), and a 24-pin matrix printer (item 3, £185.00). The middle row shows a Panasonic 24-pin matrix printer (item 4, £185.00) and two Epson models: a 9-pin dot matrix printer (item 5, £185.00) and a 24-pin matrix printer (item 6, £279.00). The bottom row includes a Canon 24-pin matrix printer (item 7, £99.00) and a Canon 24-pin matrix printer (item 8, £279.00). Each printer is shown with its price tag and a small 'Get 100% FREE!' sticker.

1. ATARI 1040ST FAMILY CLIPBOARD PACK A complete educational pack specifically designed to meet the requirements of the whole family. Full 1MB of RAM and 1MB floppy disk drive plus the full STX operating system. Successful software comes on school to adult age group including "Playground Learning", "Junior School", "GCSE Revision" and "Family Computing". Plug directly into your television. Keyboard and mouse (mouse not supplied). For suitable printers and cable see page 548, item no 1-2. For accessories see following page.

Only available in Superstores
 Cat. No. 4789342 £295.00

2. COMMODORE AMIGA 400 COMPACT PLUS CASIOGRAPHIC PACK. Pack includes "The Last Plant II", "Astray", "Quadrant" and "Yellow". Complete computer. 1MB of RAM with extra 3 1/2 inch disk drive, mouse and modulator to enable use with a television. Acclaim software to enable music processing or use as a synthesizer. Mark operated. Interface not supplied. For suitable printers and cable see page 548, item no 1-2.

Only available in Superstores
 Cat. No. 4789305 £245.00

3. ACORN ADVANTAGE SOLUTION RANGE. COMPLETE. The latest in the range of educational packages and is set of 10 CD-roms. A 1MB RAM board, winning 12-bit 80C technology processor as seen on TV. 1MB of RAM expandable to 2MB. High density 3MB 5 1/4 inch integral floppy disk drive. Standard switched light pen/trackball interface. Complete with powerful drawing package, painting program, text processing, music, mixing and composition program. Pack also includes "Quest for Gold", Olympic games game, 12-bit audio functional word processor with full word spell checker, 12 bit colour, conversation manual, and 2 hour audio TRAINING course. Easy to use "windows" environment. Parallel connection and Serial expansion interface allows compatibility with most standard and term printers. Optional software includes: direct mapping 16-bit DOS software to be run (TV modulator included) and can be used on most domestic computers. For suitable printers and cable see page 548, item no 1-2.

4. XANTHOS 1200 The only fax switch that enables your system to receive and manually transmitted fax and modem calls, whether you are in or not. Fully compatible with answering machines. Transpacific fax ensures that a fax does not operate during incoming and outgoing voice calls. Can be used in any telephone extension. Uses 32 TAP and goes computer. Sends the size and delay of installing an additional phone line.

Only available in Superstores
 Cat. No. 4789365 £95.90

5. WEST HAD 10288 - THE DATA ONE. Send and receive documents. Full hands free feature phone. Acorn's "bright fax" technology. Local copy function. Auto answer machine on 24.28 minutes. 3 one touch keys. Flexible polling. FAX composite lined book and centerfold. Fitted with more plus FREE 12 months service under one name for details.

Only available in Superstores
 Cat. No. 4789312 £245.00

ARGOS MAIL ORDER

We operate a mail order service for fax and photocopier paper rolls and cartridges.

For credit card orders, please ring 061-927 7298 (24 hour service) or alternatively pick up an order form from your local Argos Showroom. No stamp is required.

A GUIDE TO

fax machines

If you run a small business, a fax machine is an ideal way to keep in touch. A fax machine needs to be plugged into a new style phone socket and the main. Some fax machines have an internal fax switch and can direct the incoming call to either the fax or telephone as appropriate, others also allow connection to an answering machine.

However, if you have extension phones you will require an external fax switch. This enables the use of the fax with an answering machine and extension phone all on one line. To help you with your choice, we have identified some key features.

Features Guide

Half Tone Reproduction produces shades of gray and not just black and white, giving greater clarity for photographs or brochures.

Superfine/Fine Mode allows for a better reproduction of detailed documents/drawings with the facility for fine print.

Auto Document Feed lets you set up a number of pages for automatic transmission or copying in sequence.

Activity Report provides a summary of information transmitted and received.

TELEPHONE ANSWERING MACHINE An integrated fax and telephone with an answering machine allowing the user to connect it directly to an answering machine. Memory accumulation and "conserve" feature for these calls allowed. Auto fax/telephone switch/dial/pause between fax and phone calls and small standard messages to the answering machine. 16 speed dial numbers and 12 speeds on hold, auto busy-idle, photocopy facility. 16 level gray scales and tonerless color mode with auto/manual control. 1988 12 month on-site service - see the store for details. Facsimile paper available via mail order, see page 154.

Only available in Superstores

Cat. No. 875/8511 £349.00

3. BROTHER DCP-100 FAX/MAIL Combined Versus computer facsimile machine, telephone and answering machine. Fax machine a CDTT 24 compatible with automatic call-back, personal header optional delayed transmission, auto paper cutter 5 page document feeder. Memory buffer, 10 increases (2 tone each), date and time display (operate auto transmission report), LCD user prompts and includes self diagnosis, phone 1 tone/pulse detachable (has a Memory buffer, on-line during facility and auto hold). Answering machine has a 16 second digital copying message facility with microcomputer for copying messages, auto fax/phone switch, forwarding machine two-tone message received indicator and full remote control facility (with tone dialer enabled).

Only available in Superstores

Cat. No. 875/8511 £459.00

4. NEOSONIC 100300 T1100M/FAX 40 memory 12 then auto document feeder. Paper factor. Auto dial/phone buffer. Super fine resolution tone reproduction. Tone-on-tone control (TDC) CDTT 24 compatible. 16 second recordable chap (CM). Includes on-board dial telephone and Memory buffer timer polling. 1988 on-site service available - see in-store for details. Facsimile paper available via mail order, please see page 154.

Only available in Superstores

Cat. No. 875/8511 £459.00

5. CANON FC1 PORTABLE 1700/2000P. Instant warm-up and ready to copy in minutes without waiting. Main copy on a 1.44 inch optional long-life paper (copy later, off transparency or demand up to 1/28 inch). With a handy document storage pocket and carrying handle for complete portability. The manual exposure control ensures quality copies. Use a single replaceable cartridge system available in black, blue, red, brown and green and contains all parts the would normally need replacing making the FC1 practically maintenance free.

Only available in Superstores

Cat. No. 875/8511 £449.00

All the fax machines illustrated are mains operated. Therefore they require both a telephone socket and a T3 anti-power point to be adjacent to each other.

For any queries about your machine ring the appropriate telephone number during normal office hours.

ANSWERING MACHINES FROM ONLY £28.99

A GUIDE TO

answering machines

An answering machine will record messages and many include a handset for use as a normal telephone. To install your machine you need a 13 amp mains socket near to a plug-in telephone socket. A separate answering machine may also need a telephone socket double to connect alongside your telephone. This is indicated in the text where necessary.

Features Guide

Cassette Tapes

Most machines use a mini, rather than a standard size, cassette. Twin cassette units have a separate cassette for the outgoing message and incoming calls.

Digital Outgoing Message

Your outgoing message is recorded onto a digital voice chip, avoiding the need for the tape to shuttle between the outgoing and incoming messages, then cutting down on the waiting time of your caller.

Digital Voice Prompt

A digital voice will guide you through the various operations, and give you information such as the number of calls received.

Memo Facility

You can leave a message on your machine for someone else to access on their return.

Call Screening

This allows you to listen whilst the answering machine takes your call, and choose whether or not to answer personally.

Answer Only Option

The answering machine can answer a call without taking a message. This is useful if you are away for several days.

Day/Time Stamp

This records the exact time and day of all incoming messages.

Two Way Conversation Recording

This allows you to record a telephone conversation, and can be useful when listening to directions or instructions.

Brace Phone Reset

Your answering machine will stop and reset automatically when you intercept a call on another extension.

Remote Message Retrieval

You can check your calls even while you are out. Using a Teach Tone telephone (which produces a variety of tones as you dial) or a remote control device, tone retrieval activates your answering machine to play back any recorded messages. Some machines can also execute other remote functions such as changing the outgoing message. Teach Tone is a BT registered Trade Mark.

Call Count

This will display how many calls have been recorded usually on an LCD panel or by a flashing red light.

Extended Guarantees

3 and 5 year Extended Guarantees available, see page 552.

If you are looking for a large screen or portable television, Argos has a wide range for you to choose from with a variety of features.

Features Guide

FST

This stands for "faster square tube", which gives you improved definition, a wider viewing angle and less light reflection.

Teletext/Fasttext

This gives you up to date information on a wide range of subjects such as travel, news, sports and television programming. Teletext also gives subtitles on selected television programmes. Fasttext is an updated system to give you quicker access to your chosen page of information.

SCART Socket

SCART leads can be used to connect your television to your VCR, audio system or satellite receiver dish. They can also be used to connect your Camcorder to the TV to play back recordings.

Sleep & Wake-up Timers

Particularly useful if you want to watch television in the bedroom, you can programme the timer to switch the television set off automatically, after you have fallen asleep. A wake up timer also acts as an alarm clock.

NICAM

NICAM is a high quality digital audio signal which is transmitted simultaneously with television pictures, giving a similar sound quality to compact disc. To receive the stereo NICAM signal a television or video must incorporate a NICAM receiver which picks up the signal through your existing TV aerial.

A NICAM video recording must then be replayed through a NICAM or Stereo TV to maintain the stereo sound.

On Screen Display

A visual display on the TV screen will show which channel you have tuned to, or any adjustments to the volume or colour.

Argos Personal Account

Spread the cost of a new television with an Argos Personal Account. See page 2 for details.

Extended Guarantees

All our televisions have a one year manufacturer's guarantee, but for added peace of mind you can buy an Argos 3 or 5 year Extended Guarantee. We also offer Free Accidental Damage Cover. See page 192 for details.

DELIVERIES

For any queries about your TV please ring the appropriate telephone number during normal office hours.

Sound and Vision

TV DISTANCE MONITOR

6 1 £37.50

1. AMBROS "VISIONMONITOR" TV DISTANCE MONITOR. Protects the eye light of your children with the "Eye Guardian". Simply connects between the aerial and the socket on the back of the TV. When active, it switches the screen automatically off in 10 seconds. See this action in the picture.

Only available in Supercentres
Cat. No. 5351062 £37.50

Television sets have always been described by the number of lines they take across the picture diagonal. The figures shown in brackets (V) refer to the actual viewable picture diagonal. Figures are not supplied unless otherwise stated.

2. SLM MARINER ACTIVE TWIN AERIAL. For use with monitors 4.4 and 4.6. Available in small screen TV, mono CD TV and Hi-Fi systems. Also 2 x 250cm cables (order 1 of 5801444, £11.25 inc. VAT). 100% AC adaptor (not included). Twin telescopic aerials, 3 Series plus (all) except end-to-end adaptor. See 194 x 1 421 x 1 inch approx. Cat. No. 5351422 £9.99
3. CASIO 430 MARINER TV ADAPTER. For use with monitors 4 and 5. Cat. No. 5354067 £15.99

2 £9.99

A GUIDE TO

video recorders

If you never want to miss your favourite TV programme, a video cassette recorder (VCR) could be the answer. All our VCR's allow you to record one programme even when watching another on a different channel. We also sell video players, for watching pre-recorded videos. These cannot be used for recording.

Programming

VCR's are programmed to record by using a remote control handset. Many have a visual LCD panel on the handset or an on-screen display showing the details entered.

Event Timer

You can programme most VCR's to record a number of events over a period of weeks.

Twin Speed

A twin speed (or 'fast play') facility allows the VCR to record and then play back at half the usual operating speed. The

on-screen image appears as usual, but the recording time of a tape is effectively doubled. This gives 8 hours of recording on a 4 hour tape, however the quality of the recording may not be quite as good as when recorded at normal speed.

Extended Guarantee

All our VCR's have a 3 year manufacturer's guarantee, but for added peace of mind you can also take out an Argos 3 or 5 year Extended Guarantee. See page 542 for details. We also offer FREE ACCIDENTAL DAMAGE COVER. See page 4 for details.

3 YEAR COVER, 5 YEAR COVER
VCR BUYERS SEE US: 0800 121 17 99

Argos Personal Account

Spread the cost of a new VCR. See page 2 for details.

1 £599

1. MULTI-PLUS - Programming provides multi-tape. Every day, next to the TV programme in most national newspapers, 'TV Time' and 'What's On TV', you will find the Video Plus + code. This enables the simply log the code number of the programme you want to record on the Video Plus + handset, press the appropriate button to set once daily or weekly and it will tell you when what to record. Video Plus + will store up to 14 different programme numbers and works with virtually all videos and provides pictures which have an infra-red remote control. Cat. No. 53076132 £59.99

9. ANT "VIDEO-VIDEO" SUPPORT. 1750b. Single swivel arm and video will support both television and video sets for the majority of 15 to 21 inch screens and handling video monitors (screen width: 14-16 inch max height 26-4 inch). Combined maximum weight of 150lb. Rotates on swivel arm using gas. Finished in black. Manufacturer's 5-year guarantee. Made in the U.K.

Cat. No. S2012015 **£31.90**

10. Reception Difficulties - Agreed TV aerial, correctly positioned, will reduce reception problems of noise and reflections. A signal booster will amplify weak signals or simply extend TV sets from one aerial. However a signal booster without a good aerial will not always solve location reception problems.

A GUIDE TO

audio features

The advances in audio technology means that many sophisticated features are available on both personal and portable equipment, as well as our mid and hi-fi systems.

Features Guide

Digital Tuners

Phase Lock Loop (PLL) digital tuners seek out stations by searching the whole wavelength automatically for the next strongest signal.

Pre-set Buttons

You can select your favourite stations to be recorded in the memory, and then recall them at a touch of a button.

Dolby 'B' & 'C'+

Dolby is a noise reduction facility that reduces the hiss when tapes are played, especially on "quiet" music. Dolby 'C' is the enhanced version of Dolby 'B', giving even clearer sound reproduction.

Replay Play

Available with twin tape decks, the second tape automatically takes over when tape one has finished.

Auto Reverse

When your tape has finished, the cassette player automatically plays the other side.

High Speed Dubbing

On twin tape decks, this allows faster tape copying usually at twice normal speed.

Graphic Equalizers

A graphic equalizer allows you to "shape" the tone of the music being played by increasing or reducing particular sounds.

The greater the number of bands, the more precise the equalizer.

Spectrum Analyser

This provides a visual display of the sound level in the form of "dancing lights", enabling you to make fine adjustments to sound and tone levels.

Compact Disc

Compact disc, or CD, provides the most accurate sound reproduction available. On CD mini systems, a search button allows you to select which tracks you want to hear. A memory facility allows you to programme a sequence of tracks in any order.

Turntables

Belt driven decks ensure a constant rotational speed. Fully automatic decks place the stylus on the record for you, and remove it after the record ends. Some automatic decks only return the stylus, you have to place it on the record.

Speakers

Within each speaker is a series of either 1 or 3 cones (known as "1 way" and "3 way" speakers). 3 way speakers usually give a better quality of sound. Active speakers for use with personal CD's and stereos have

their own power source to further amplify the sound.

Music Output

The higher the number of watts the greater the capacity of the amplifier and the louder the sound will be. 2 x 15 watts music power means that there are 2 speakers with a maximum output of 30 watts per speaker. Manufacturers generally express the potential maximum volume in one of three forms:

1w RMS = 2w PMPO = 4w PMPO

• The recording and playback of certain material may only be possible by permission. Please refer to the Copyright Designs and Patents Act 1988 and the Performers Protection Act 1958-77.

• Dolby is a TRADEMARK of Dolby Laboratories Licensing Corporation.

VALUE
ON**

extended guarantees

The following guarantees do not affect your statutory rights.

At Argos, our aim is to offer you high quality, reliable products - all of which carry a manufacturer's guarantee of at least 12 months.

However, for added reassurance we also offer 3 and 5 year Extended Guarantees at low, low prices. In new, at an affordable price, you can insure against possible repair costs after the manufacturer's guarantee has expired. Underwritten by Cornhill Insurance PLC, our Extended Guarantees cover both parts and labour costs of faults arising due to faulty workmanship or materials used in manufacture. A 3 year guarantee extends the manufacturer's guarantee (either 1 or 3 years) to a total of 3 years. A 5 year guarantee extends cover to a total of 5 years, after the date of purchase. Our full range of Extended Guarantees is shown in the table below.

How to buy your Extended Guarantee

Buying an extended guarantee is simple, and can be done at the same time as buying any other Argos product.

- 1 Fill in the appropriate catalogue number on a selection form.
- 2 Take the form to a cashier.
- 3 After paying, you will be directed to the collection counter where a member of staff will take all the necessary details to complete your insurance cover.
- 4 You will then be given a copy of the agreement to keep. This will also tell you what to do if you need to make a claim.

Please note that you must purchase extended guarantee cover within 30 days of purchasing the item to be covered.

If you have any queries about your insurance cover, please use the Cornhill Insurance helpline 0892 515414 during normal business hours. Unfortunately we cannot insure items for commercial use. Please ask in-store for full terms and conditions.

FREE ACCIDENTAL DAMAGE COVER

We also offer **FREE FIRST YEAR ACCIDENTAL DAMAGE COVER**, even if you decide not to buy an extended guarantee.

You can apply for free accidental damage cover on all of the items shown below, except camcorders. Simply pick up a leaflet in-store.

If you do buy an extended guarantee, then we will automatically include the free accidental damage cover.

A GUIDE TO car audio

We sell a range of car stereos, from simple radio cassettes to CD players. Many of the functions are similar to those on other hi-fi equipment. Additional features include:

Fader
On 4-speaker systems you can adjust the sound balance

between the front and back speakers.

Auto Seek Tuning
The radio automatically seeks out the next strongest signal on a wavelength

Radio Data Systems (RDS)
Designed to make road travel safer and easier, RDS displays the station name and maintains your

chosen station automatically when travelling through different reception areas.

Extended Other Network (EON)
If your RDS unit incorporates EON, then when traffic information is broadcast, this can automatically interrupt your listening with travel bulletins.

Extractable Units

Some units are designed to be easily removed when you leave your car and then on return, simply slot into place for play.

Please note, there are 3 sizes of car radio/cassette. The base, DIN E, will fit most cars built after 1965. DIN D will fit almost every car. Post 1982 models may require an adaptor plate. Please refer to your vehicle specification manual.

DEALERSHIPS

For any queries about car audio please call the appropriate helpline during office hours.

5 THE WORLD OF CHUCK-M

For collectors considering "45s" or your favorite old time rock 'n' roll hits by the legendary "Twinz of Rock 'n' Roll" Chuck Berry, the collector's edition includes "Johnny B. Goode," "Rock and Roll Music," "Route 66," "Sweet Little Woman," "Carol," "Mangrove," "Rocker & Roller," "Around and Around" plus the classic "My Ding-a-Ling" and many more. A great rock collection in any party.
